Proposed pouch
Letter to *from* [redacted] Wolf

Reference: [redacted]

25X1A

1. The problem raised in your memorandum of 10 August 1951 has received careful consideration by all concerned. I am appreciative of your advising me directly on this matter.
2. The proposed legislation to which you refer originally contained provisions which would have been of assistance in your case. However, the Congress will not accede to the provisions as proposed, and the bill as eventually passed has no bearing on your particular situation.
3. The question of a recall to active duty has been reviewed with the Director, and he has not deemed it advisable in view of all the circumstances.
4. In view of the above, we have come to the conclusion that the solution at this time can only be your acceptance of ^a ~~the~~ normal civilian position at the rating of GS-18, since it is obvious that the arrangement devised for the period 23 April 1951 through 30 June 1951 cannot continue. ^{(however,} ~~the~~ allowances, ~~however, set forth in that original arrangement will continue at the same rate and in the same manner. Set forth below is ^{a comparative} ~~an estimate~~ estimate of your net dollar position without regard to allowances since they are the same in any event. We have estimated a rate of pay as 60%, tax-free, and have figured the taxes on both figures on the basis of two exemptions.~~
